RE: Knowledge of and attitude toward existing and emerging treatment options for Parkinson's Disease, **IRB #032PHDCR**

The University of Jamestown Institutional Review Board (IRB) has reviewed the above referenced study. The IRB has determined that this study is being conducted for the purpose of research and has determined that this study is exempt.

Condition of approval. There are six (6) conditions that accompany IRB approval. All six conditions must be met, or the IRB approval may be suspended:

1. No subjects may be involved in any study procedure prior to the IRB approval date.
2. All protocol modifications must be IRB approved prior to implementation. This includes any change of investigators or site address.
3. All protocol deviations must be reported to the IRB within 14 calendar days.
4. All recruitment materials and methods must be approved by the IRB prior to being used.
5. The IRB must be notified upon completion of this project

Principal investigators (PI's) are responsible for making sure that the studies are conducted according to the protocol, and for all actions of the staff and co-investigators with regard to the protocol.

If you have questions or concerns about this approval, please contact the IRB chair through the contact information below.

Sincerely,

Sara Voorhees
